

**220 Anniversary of W.R. Hamilton and 20<sup>th</sup> Anniversary of the Hamilton Mathematics Institute  
TCD Conference**

**Friday, 14 March 3.30 pm-4.30 pm**

**Talk by:** Jocelyn Bell Burnell (Oxford, UK)

**Title:** How some curious squiggles came to be understood; the discovery of pulsars.

**Description:**

A non-mathematical interlude focusing on sledge hammers, soldering irons, miles of chart paper and radio signals from space.
