

Foundation Scholarship - Examination Requirements

Course of Study: Single Honours History

School/Discipline: History

Academic Year: 2024/25

Foundation Scholarship involves a searching examination, set and assessed so as to select students of outstanding ability.

Please include a brief statement below which explains how your examinations succeed in identifying the qualities

Papers are set on the subjects studied during the Junior Freshman and first half of the Senior Freshman years. Students will not have been previously assessed in these subjects by examination but only by coursework. The examination format for the Foundation Scholarship requires students to synthesise the material covered in each module, as well as across modules, and to think critically about the material and apply evidence to new questions. Students are given the fullest possible opportunity to demonstrate their specific knowledge, critical understanding, originality of thought and expression, and capacity to synthesize
