What Students Have Said About the Bursary:

Student 1

"The accommodation bursary will take massive pressure off my family and I for the coming year...as my disability is affected by standing and sitting for long periods of time, having to work part-time after a day of lectures, labs and studying would leave me extremely exhausted. Receiving the accommodation bursary will relieve the pressure of having to find a part time job, allowing me to keep on top of my studies and also look after myself and my health. Receiving the accommodation bursary will allow me to enjoy another year in TCD, stress-free."

Student 2

"The accommodation bursary has been very beneficial for me and my family in financing my student accommodation. Before being aware of this system, my parents and I were in a very lost and confused position on how I would go about continuing my education in Trinity college, because the price of accommodation is very inflated, and we did not have sufficient savings and resources to cover them. It was always a lifelong aspiration for me to attend college here and thanks to the accommodation bursary it has been a dream come true."

Student 3

"The Accommodation Bursary will alleviate a significant number of challenges for me and ease the pressure and demands on my strength, energy levels and mental fatigue. Being on campus where I will have access to study resources will help me not fall behind on my workload. I will also be in a central location of town with ease of access to my hospital and doctors' check-ups, giving me further time to study and engage with the requirements of my course. Being on campus will mean that I can additionally have the option to participate with the social activities on campus and will massively

improve my confidence, motivation, and sense of connection. For the first time ever – I can't wait for summer to be over so I can get back to college!"
