9.5	Data protection.....	37
10	Guidelines on Grades .....	38

## 1 Introduction

Welcome back to the Department for your fifth year of study in College. This is an extremely important year for you all and it will be a busy one with opportunities to take advanced courses and the highlight being the research project.

With various mostly good and perhaps occasionally bad habits developed over the previous years, we can say now with certainty that it is extremely important that you organise and use your time responsibly and effectively in this MAI year in order to balance the subject and associated course work, with the demands from the project, and potential job applications etc.

This handbook provides information about your year, stream, and course.

Alternative formats of this handbook can be made available on request.

### 1.1 European Credit Transfer System (ECTS)

The [European Credit Transfer and Accumulation System \(ECTS\)](#) is an academic credit system based on the estimated student workload required to achieve the objectives of a module or programme of study. It is designed to enable academic recognition for periods of study, to facilitate student mobility and credit accumulation and transfer. The ECTS is the recommended credit system for higher education in Ireland and across the European Higher Education Area.

The ECTS weighting for a module is a measure of the student effort or workload required for that module, based on factors such as the number of contact hours, the number and length of written or verbally presented assessment exercises, class preparation and private study time, laboratory classes, examinations, clinical attendance, professional training placements, and so on as appropriate. There is no intrinsic relationship between the credit volume of a module and its level of difficulty.

The European norm for full-time study over one academic year is 60 credits. 1 credit (=1 ECTS) represents 20-25 hours estimated student effort, so a 5 credit (= 5 ECTS) module will be designed to require 100-125 hours of student effort including class contact time, assessments, and examinations.

ECTS credits are awarded to a student only upon successful completion of the programme year. Progression from one year to the next is determined by the programme regulations. Students who fail a year of their programme will not obtain credit for that year even if they have passed certain component. Exceptions to this rule are one-year and part-year visiting students, who are awarded credit for individual modules successfully completed.

## **1.2 Student workload**

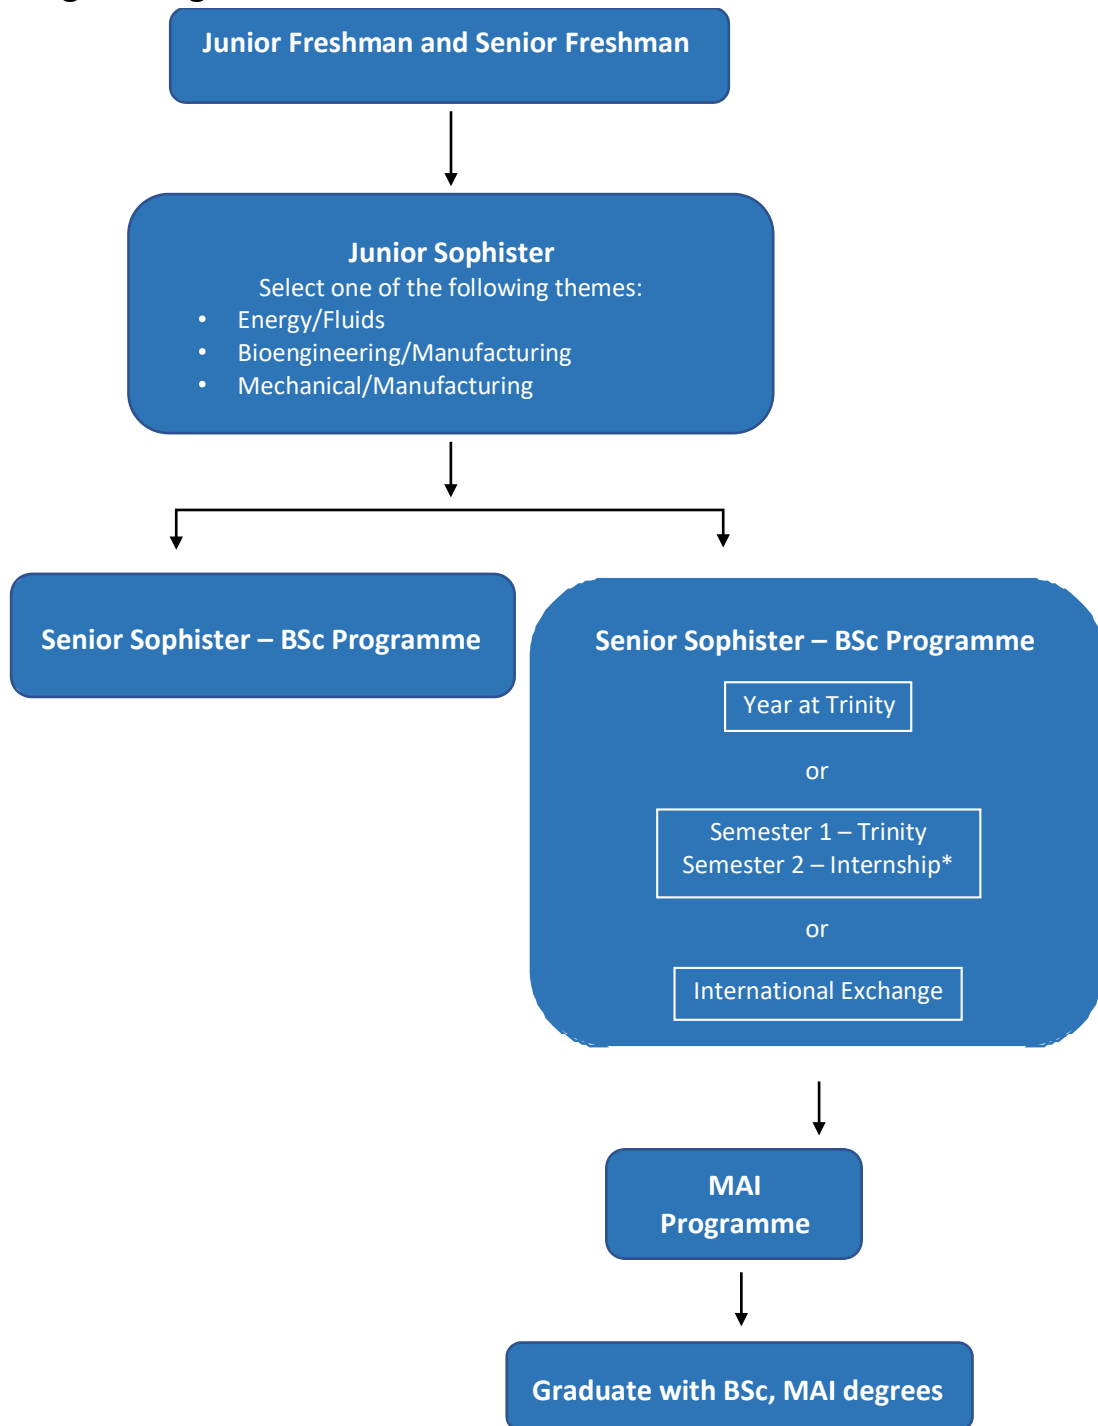

The MAI year continues your specialisation in Engineering with Management. This is an important year for you, and it will be busy! Organise and use your time responsibly and effectively. This year each student will undertake a significant research project under the guidance of a member of academic staff. Outlined in this document is some information and advice to help you through the year. In your studies, you should aim to work for approximately 50 hours per week, including project work, lectures/labs/tutorials, course content review and exam preparation. Developing proper study techniques and the capacity to use the library and the internet, as well as interacting with your peers and lecturers to supplement formal lecture material, are central aspects of a university education. You should not expect to be given full details of all aspects of the modules in lectures or tutorials. It is ultimately your responsibility to ensure that you have understood the fundamentals of every module and that you can solve both tutorial problems and other examples to be found in appropriate textbooks.

## **1.3 College rules & regulations**

All students are encouraged to fully familiarise themselves with the [College Calendar Part II](#) which contains various sub-sections, including college rules and general regulations, which can be found [here](#). Regulations specific to the Faculty of Science, Technology, Engineering and Mathematics can be found [here](#).

In the event of any conflict or inconsistency between the General Regulations published in the University Calendar and information contained in programme or local handbooks, presentations or other sources, the provisions of the general regulations in the Calendar will prevail.

## 2 Engineering course

The integrated BSc(Eng)/MAI degree programme is professionally accredited by [Engineers Ireland](#) and meets the educational requirements for corporate membership of this professional institution and registration as a chartered engineer. Further information can be found [here](#).

## 2.1 MAI (5<sup>th</sup>) year structure

The MAI year is delivered in two semesters, intended to be 30 ECTS each, with assessment sessions at the end of each semester. **Your MAI performance affects your final degree result.**

## 2.2 Eligibility criteria

### 2.2.1 MAI (integrated masters)

Students must pay a tuition fee for the MAI year. More information is available [here](#).

To be eligible to proceed to the fifth year of the MAI programme, students in the Senior Sophister year must achieve a minimum overall BAI mark of 60 per cent for the combined Junior Sophister and Senior Sophister years (on a 30:70 basis) at the first attempt at the annual assessment session of the BSc degree year. Students eligible for MAI will be sent a list of available MAI projects at the end of the Senior Sophister year and asked to rank their preferences from 1 to 10. The allocation is made based on a student's Junior Sophister ranking.

Note: students who took [international exchange](#) and/or [MEU44E04 Industrial Partnership/Internship module](#) who did not take the MEU44E02 module in the Senior Sophister 4<sup>th</sup> year are on the MAI track. Those students do not qualify for the BSc degree, since they have not fulfilled all criteria as outlined in Section 2.3.

## 2.3 Degree award routes

### 2.3.1 BA

Students who complete the third year by examination and who choose not to proceed to, or fail to complete satisfactorily, the fourth year of the Engineering course may elect to be conferred with the ordinary degree of BA (this is not a BA in Mathematics).

### 2.3.2 BA and BSc (Ing)

Awarded to Engineering students who exit the course by fulfilling all 3 criteria below:

1. obtained the required credit for years 1 to 4 of the course.
2. successfully completed a Senior Sophister capstone project.
3. spent their final semester in the University of Dublin, Trinity College.

The BSc mark combines the average mark achieved in the Junior Sophister year (30% towards overall average) and the Senior Sophister year (70% towards overall average). Students on the MAI track who take the Senior Sophister internship and successfully complete the Senior Sophister year have previously, in some cases, been eligible to exit with the BA and BSc degrees following review by the Head of Discipline of Mechanical, Manufacturing, & Biomedical Engineering and the School of Engineering Director for Undergraduate Teaching & Learning (DUTL). However, this path to BA and BSc awards is under review for the academic year 2023-24 and students are strongly discouraged from pursuing this path. Students risk having to do an additional capstone project to fulfil the award criteria detailed above.

*Senior Sophister students who are exiting with a B.A.I./B.Sc degree must complete a capstone project. In exceptional circumstances, where the Director of Undergraduate Teaching and Learning and the relevant stream co-ordinator are satisfied that a specific internship project has demonstrated the equivalent learning outcomes to a capstone project, the internship project may be deemed equivalent to capstone project.*

### 1.3.2 BA and MAI

Awarded to those Engineering students admitted in 2016-17 onwards who exit the course by fulfilling all 3 criteria below:

1. obtained the required credit for years 1 to 5 of the course.
2. successfully completed a MAI capstone project.
3. spent their final semester in the University of Dublin, Trinity College.

## 1.4 School of Engineering examination regulations

Available on the School of Engineering website, or [here](#).

## 1.5 External examiner

Tomasz Tanski, Silesian University of Technology, Poland.

## 2 Engineering with Management

### 2.1 Stream learning outcomes

The main objective is the pursuit of excellence in teaching and research in Engineering with Management with the central aim of producing graduate engineers with a capacity for independent thought in problem solving and creative analysis & design. To achieve this, we must:

- instil in students an enthusiasm for the art and practice of Engineering.
- teach the engineering science and mathematics which underpin the subject areas of Mechanical & Manufacturing Engineering.
- demonstrate the application of these principles to the analysis, synthesis and design of engineering components and systems.
- foster the development of team working skills.
- encourage students to exercise critical judgement and develop the communication skills necessary to make written and oral presentations of their work.

These objectives are underpinned by:

- undertaking both basic and applied research.
- the provision of advanced facilities for students to undertake graduate research degrees.
- the development of academic staff in teaching and research by ensuring that adequate resources are available to assist them.
- ensuring that the research work is of the highest international standard by participation in international conferences and publication in learned journals.

In addition, we must consider:

- the requirements of the relevant professional institutions.
- the needs of Irish and European industry in the undergraduate curriculum.

## 2.2 Modules and module descriptors

The table below details the modules, credit value, and coordinator. Module descriptors are available at the following link:

\*The deadline for changing module choices is the end of week 1 of each semester.

<https://www.tcd.ie/mecheng/engman/current/y5-MAI.php>

Module Code	Module Title	ECTS	Status	Sem.	Coordinator
CE7J04*	Energy Policy & Demand	5	Optional	1	See link above
EE5C16*	Deep Learning & its Applications	10	Optional	1	See link above
ME5MM3	Supply Chain Management	5	Optional	1	Garret O'Donnell
ME5MM7	Risk Management & Safety Assessment Systems	5	Mandatory	1	Garret O'Donnell
MEU55E02	Engineering Research Project	30	Mandatory	1+2	Daniel Trimble
MEP55E04	Computational Fluid Mechanics	5	Optional	1	Seamus O'Shaughnessy
MEP55B10	Finite Element Analysis	5	Optional	1	Triona Lally
MEP55B14	Engineering Vibrations & Noise	5	Optional	2	John Kennedy
ME5E3	Innovation in Product Design	15	Optional	1+2	Kevin Kelly
MEP55B16	Low Carbon Power Technology	10	Optional	1+2	Stephen Spence
STU45006	Strategic Information Systems	10	Optional	1+2	Diana Wilson
ME5BIO3	Tissue Engineering	5	Optional	2	Daniel Kelly
CE7J01*	Wind Energy	5	Optional	2	See link above
CE7J06*	Wave and Hydro Energy	5	Optional	2	See link above
ME5B03	Advanced Thermal Fluid Design	10	Optional	2	Tony Robinson
ME5MM1	Additive Manufacturing & Laser Processing	5	Optional	2	Amir Pakdel
MEP55M10	Turbomachinery	5	Optional	2	Stephen Spence

## 2.3 Timetable

<https://www.tcd.ie/engineering/assets/student-resources/EM-Timetable-MAI.pdf>

## 2.4 Tutorials

Tutorials will be scheduled with your lecture timetable. Attendance at tutorials is mandatory. For some modules, multiple tutorial groups and tutorial sessions may be required. Due to the breadth of module options, module tutorial groups will be decided by the module coordinator.

## 2.5 Laboratories

Certain modules may have associated laboratory experiments or computer-based assignments. Students are expected to keep a logbook recording the details of every experiment performed. Students may be required produce a technical written or oral report about experiments and/or assignments. Each student is required to submit their report in a format required by the assignment brief by the specified date to avoid penalty. Guidelines as to the required format, length, and due date of such assignments should be specified by the relevant module coordinator.

### 2.5.1 Lab schedule

Due to the breadth of module options, module laboratory groups will be decided by the module coordinator.

Please note that you **must** attend the specific laboratory sessions to which you have been assigned. Students should not swap sessions with other students unless prior approval by the module and/or lab schedule coordinator is given.

### 2.5.2 Lab attendance & grading

Attendance at labs is mandatory. Absence from a lab will result in a mark of zero, even if a report is submitted. No report submitted results in a mark of zero, even if the lab was attended. Labs cannot be taken in the summer/autumn periods if missed during the teaching terms.

## **2.6 Policy on late submission of coursework**

Coursework and assessment are an essential part of student learning to reinforce aspects of module content. For **ALL** modules within Engineering with Management the following applies:

### **2.6.1 Individual coursework**

Coursework received up to two weeks after the due date will be graded, but a penalty will be applied as follows:

- Up to 1 week late = minus 15%
- From 1 week to 2 weeks late = minus 25%
- Submissions > 2 weeks late will not be accepted and will receive a zero grade.

Submission dates may be extended in exceptional and extenuating circumstances. Students must apply directly (via email) to the relevant module coordinator requesting an extension and must provide an explanation and/or evidence for such (*e.g.*, medical cert). Please note that the module coordinator reserves the right to refuse granting of an extension.

### **2.6.2 Group coursework**

The same penalties for late submissions will apply to group coursework as outlined for “Individual Coursework”. Certain modules may adopt an additional grading scheme whereby group projects/assignments will be graded as a function of lecture attendance. Please consult the module coordinators.

## **2.7 Policy on participation in continuous assessment-based modules**

Students who are absent from a third of their lectures, tutorials, or labs of a continuous assessment-based module, or who fail to submit a third of the required coursework will be deemed non-satisfactory. Students reported as non-satisfactory for both semesters of a given year may be refused permission to take their examinations and may be required by the Senior Lecturer to repeat the year. Further details of the procedure for reporting a student as non-satisfactory can be viewed on the [College Undergraduate Studies](#) website.

## 2.8 Organisation Chart

## 2.9 Contact Persons

### 2.9.1 Director of Mechanical & Manufacturing Stream

Professor Daniel Trimble (✉ [dtrimble@tcd.ie](mailto:dtrimble@tcd.ie))

### 2.9.2 Junior Sophister Co-ordinator

Professor Rocco Lupoi (✉ [lupoir@tcd.ie](mailto:lupoir@tcd.ie))

### 2.9.3 Senior Sophister Co-ordinator

Shuo Yin (✉ [yins@tcd.ie](mailto:yins@tcd.ie))

### 2.9.4 MAI Co-ordinator

Shuo Yin (✉ [yinns@tcd.ie](mailto:yinns@tcd.ie))

### 2.9.5 Erasmus / Unitech / Year Abroad Co-ordinator

Professor Garret O'Donnell (✉ [odonnege@tcd.ie](mailto:odonnege@tcd.ie))

### 2.9.6 Senior Sophister Internship Co-ordinator

Professor Anthony Robinson (✉ [arobins@tcd.ie](mailto:arobins@tcd.ie))

### 2.9.7 Administrative contacts

Nicole Byrne, Executive Officer (✉ [nbyrne3@tcd.ie](mailto:nbyrne3@tcd.ie))

## 2.10 Feedback and evaluation

The Staff/Student Liaison Committee meets once per semester to discuss matters of interest and concern to students and staff. It comprises elected student class representatives from each year of the Engineering with Management programme and the relevant academic staff in their roles as year coordinators.

Module surveys may be carried out by module coordinators during or at the end of each semester. Students are encouraged to participate as this enables staff to make improvements to the programme. A programme level survey is issued online to students towards the end of semester 2. Students are encouraged to discuss matters of concern with module coordinators through their class representatives.

### 3 Graduate Attributes

Throughout their time at Trinity, our students will be provided with opportunities to develop and evidence achievement of a range of graduate attributes that support their academic growth. Graduate attributes can be achieved in academic and co- and extra- curricular activities.

## Trinity Graduate Attributes

### To Act Responsibly

#### A Trinity Graduate

- Acts on the basis of knowledge and understanding
- Is self-motivated and able to take responsibility
- Knows how to deal with ambiguity
- Is an effective participant in teams
- Has a global perspective
- Is ethically aware

### To Develop Continuously

#### A Trinity Graduate

- Has a passion to continue learning
- Builds and maintains career readiness
- Commits to personal development through reflection
- Has the confidence to take measured risks
- Is capable of adapting to change

### To Think Independently

#### A Trinity Graduate

- Has a deep knowledge of an academic discipline
- Can do independent research
- Thinks creatively
- Thinks critically
- Appreciates knowledge beyond their chosen field
- Analyses and synthesises evidence

### To Communicate Effectively

#### A Trinity Graduate

- Can present work through all media
- Is expert in the communication tools of a discipline
- Connects with people
- Listens, persuades and collaborates
- Has digital skills
- Has language skills

## **4 Key dates**

### **4.1 Academic calendar**

Weblink: <https://www.tcd.ie/calendar/>

### **4.2 Teaching weeks**

Semester 1: 09 September to 25 November 2024 inclusive

Semester 2: 20 January to 11 April 2025 inclusive

### **4.3 Annual assessment sessions**

Semester 1: 09 – 13 December 2024 plus contingency days

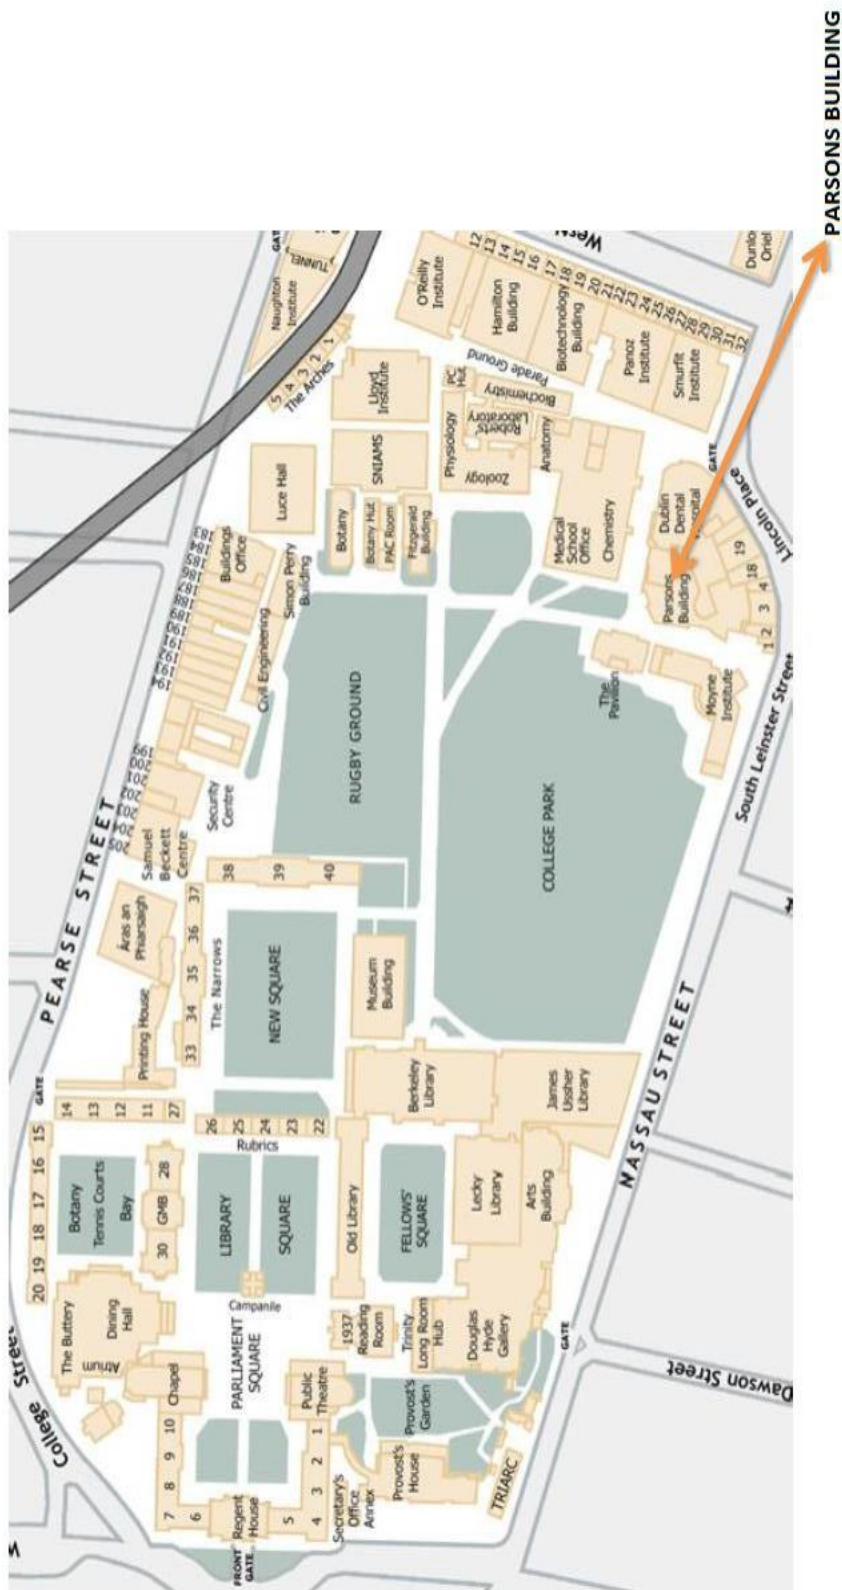

Semester 2: 21 April – 25 April 2025 plus contingency days

### **4.4 Re-assessment session**

To be confirmed, likely August 2025.

## 5 Key locations

Interactive college map available [here](#).

## **6 Prizes and Scholarships**

Note: prizes below are under review for the academic year 2023-24.

### **6.1 Book Prize**

A prize of a book token is awarded to candidates who obtain a standard equivalent to an overall first-class honours grade (70% and above) at the first attempt of the semester 1 and semester 2 assessment. Book Prizes will be available for collection in November of the following academic year from the Academic Registry. These prizes are issued in the form of book tokens and can be redeemed at Hodges Figgis and Co. Ltd. The value of the book token is to be updated during the 2023-24 academic year.

### **6.2 E.R. Stuart Prize in Engineering**

This prize, established in 1982 from funds subscribed by colleagues to mark Mr E. R. Stuart's retirement, is awarded to the first year engineering student who is judged by the School of Chemistry to have given the best performance in the first year engineering chemistry module of that year. Value, €200.

#### **VICTOR W. GRAHAM PRIZES**

These prizes, founded in 1986 from funds subscribed by friends and pupils to mark Mr V.W. Graham's retirement, are awarded to the first year engineering student who obtains the highest marks in engineering mathematics (modules 1E1 and 1E2) at the annual class examination and to the second year engineering student who obtains the highest mark in engineering mathematics (modules 2E1 and 2E2) at the regular annual class examination. Value, first year prize €750, second year prize €1,000.

### **6.3 Kinsella Scholarship**

This scholarship was established in 2016 by Barbara and Eric Kinsella, Chairman of Jones Engineering Group. The scholarships are awarded to students in their Senior Freshman year. Valued at €5,000 per annum, each scholarship will be renewed annually for the duration of the student's studies. The scholarships will be awarded on the basis of marks obtained in the Engineering Project Design modules with selected students being invited to go forward to an interview stage. Preference will be given to candidates not already holding scholarship awards of significant value.

## 7 Health and Safety

It is the Department's policy to ensure, in so far as possible, the health, safety, and welfare of all its staff and students in accordance with the College Safety Policy, the Safety, Health and Welfare at Work Act of 2005 and relevant, later, subsidiary legislation and statutory instruments. All reasonable steps will be taken to ensure that no persons – be it staff, students, or others – health, safety and welfare is put at risk by, or as a result of the activities of the Department.

Students are expected to co-operate by taking proper care for their own health and safety and the safety of others who may be affected by their acts or omissions. Students are expected to follow any instructions in safe practices and procedures and ensure they do not intentionally or recklessly interfere or misuse anything provided in the interest of health safety and welfare. Failure to comply with safe procedures or instructions may result in the commencement of disciplinary procedures by the college.

The Safety, Health and Welfare at Work Act 2005 requires that you take all precautions, as far as is reasonably practicable, to avoid endangering yourself or others by your activities. The Health and Safety Statement and Codes of Practice for the Department areas are set out in the MMBE Safety Statement.

<https://www.tcd.ie/mecheng/safetystatement/safety-statement/> You are required to read, understand, and abide by them. **You must also complete the Safety Statement Acknowledgement Form. Students and staff will be excluded from all laboratories and workshops until they have completed this Acknowledgement.**

The Departmental Safety Statement supplements the University Safety Statement and University Policies, which are accessible on the Trinity College Dublin's website.

### 7.1 Emergency procedure

In the event of an emergency, Dial Security Services on extension 1999.

Security Services provide a 24-hour service to the college community, 365 days a year. They are the liaison to the Fire, Garda and Ambulance services and all staff and

students are advised to always telephone extension 1999 (+353 1 896 1999) in case of an emergency.

Should you require any emergency or rescue services on campus, you must contact Security Services. This includes chemical spills, personal injury or first aid assistance.

It is recommended that all students save at least one emergency contact in their phone under ICE (in Case of Emergency).

## **7.2 Risk Assessments**

All members of the college must carry out a risk assessment where their work has the potential for harm to themselves and others. All experimental work requires a risk assessment that:

- includes and addresses any potential hazard, including lone working.
- is updated if there is a significant change to experimental equipment or procedures.
- is reviewed and updated annually.
- is signed by the responsible Principal Investigator or supervisor.

Preferably, your risk assessments will be included in a Project Safety Statement. The Project Safety Statement will include but is not limited to the following;

- Title block
- Student & Lab info
- Emergency contacts
- Overview of project
- Registered users form
- Activity details
- SOPs
- Safety Data Sheets
- Risk Assessments in 5x5 format

Some projects may require multiple risk assessments. Completed Project Safety Statements should be uploaded to the Projects SharePoint. Previous examples can be found on SharePoint.

### **7.3 New Hazard Safety Document**

This document is required for new High-Risk Hazards such as Chemicals, Compressed Gas, Cryogenics, etc. The document should provide an overview of the hazard (why the hazard is required, hazard location, duration the hazard is required for, etc.).

Additionally, an in-depth account of the hazard should include safety information and documentation, MSDS and any additional safety documentation relevant to the hazard. All new hazards will require risk assessments and approval.

### **7.4 After Hours Working**

It is now compulsory to use the SafeZone App while in MMBE labs or offices outside of normal working hours. The normal working hours for the Department are 8am to 5pm, Monday to Friday. Outside of MMBE normal working hours, the use of SafeZone app is mandatory. Extended hours for the Department are 5pm to 10pm, Monday to Friday and 10am to 4pm Saturday and Sunday. There will be no access to Parsons Building outside of these hours.

Working on experimental systems (or machinery) outside normal working hours is not permitted without prior authorization of the project supervisor (or person-in-charge) after they have conducted a full assessment of risk and devised a safe system of work.

No staff member, postdoctoral worker, or student will be permitted to carry out experimental or technical work of any kind in the Department at any time outside normal working hours unless there is another person close by, who is aware of their presence so that they can summon assistance in the event of an accident.

Isolated individuals must never carry out potentially hazardous work or activities and should apply for Lone Working approval.

Please download the SafeZone app and see the University lone working policy and the MMBE Protocol for After Hours Working.

## 7.5 General Safety Action

When you enter a building in the University, MMBE or otherwise:

- Find out how to get out in an emergency.
- Know the location of the emergency evacuation assembly point.
- Know where the nearest alarm call point is.
- Read the hazard information signs (fire, first aid, chemical, biological, radiation, laser etc.).
- Emergency numbers are:
  - 1999 or 01 8961999 – Main Campus
  - 3999 or 01 8963999 – TBSI

## 7.6 Fire Action

What to do if you discover a fire:

- Raise the alarm at the nearest break glass unit or alarm call point.
- Leave your building immediately using the nearest exit route.
- Do not use lifts.
- Close doors behind you as you leave.
- Do not take risks.
- Notify Security at 1999 or mobile 01 896 1999, informing them that the alarm has been raised and in which area. TBSI numbers are: 3999 or 01 8963999.
- Notify a Fire Warden of your findings if there is one outside the building.
- Report to your designated Assembly Point, do not congregate at the building entrance.
  - Parsons Building & SNIAM                      Point D
    - Grass triangle ('Flat Iron') at east end of Boardwalk (College Park).
  - WATTS    Point E
    - Between the Lloyd and O'Reilly Buildings, near the Arches.

- TBSI Points G and F
  - To the sides of the Institute on Cumberland St South and Sandwich Street.

What to do if the fire alarm sounds

- Obey, promptly, all instructions given by the Fire Wardens/Safety Officer.
- Leave your building immediately using the nearest exit route.
- Do not use lifts.
- Close doors behind you as you leave.
- Do not take risks.
- Move away from the building.
- Report to your designated Assembly Point, do not congregate at the building entrance.
- Do not re-enter building for any reason until authorised to do so and fire alarm is switched off.

## 7.7 First Aid

First Aid will not take the place of professional treatment. In the case of minor injuries such as cuts or burns, assistance may be sought from members of the Department who possess a qualification in First Aid. For serious injuries during normal office hour's emergency medical attention can be obtained from the University Health Services by contacting Ext. 1556.

Updated lists of first aiders in the Department are located near first aid boxes installed throughout the Department. Make sure to familiarise with the location of the nearest first aid box.

Current MMBE first aiders can be contacted through the Mechanical workshop.

Should the local first aiders be unavailable then the emergency services can be contacted on Ext. 1999 for the Main campus or 3999 for the TBSI building.

## 7.8 MMBE Safety Contacts

First Aid

Mr. Alex Kearns                      ext. 1463 (workshop)

Mr. Gordon O'Brien\*              ext. 2396

\*MMBE Safety Officer ✉ [gordon.obrien@tcd.ie](mailto:gordon.obrien@tcd.ie)

Specialist Safety Area contacts (Chemical, Laser, Electrical, Fire Wardens, *etc.*) and University Safety contacts can be found in Section 6 of the MMBE Safety Statement.

## 7.9 Safety Links

- [MMBE Website Safety Section](#)
  - [MMBE Lone and Out-of-Hours Working Policy](#)
  - [Risk assessments](#)

## 8 Student Supports

Trinity College provides a wide range of [personal and academic supports](#) for its students.

### 8.1 Tutors

A tutor is a member of the academic staff who is appointed to look after the general welfare and development of the students in their care. Whilst your tutor may be one of your lecturers, the role of tutor is quite separate from the teaching role. Tutors are a first point of contact and a source of support, both on arrival in college and at any time during your time in college. They provide confidential help and advice on personal as well as academic issues or on anything that has an impact on your life. They will also, if necessary, support and defend your point of view in your relations with the college. If you cannot find your own tutor, you can contact the Senior Tutor (tel: 01 896 2551). Senior Tutor's website: <https://www.tcd.ie/seniortutor/>

### 8.2 Student Counselling Service

Address: The Student Counselling Service, 3rd Floor, 7-9 South Leinster Street, College.

Opening hours: 9:15 am to 5:10 pm Monday to Friday during lecture term.

Tel: 01 896 1407      ✉: [student-counselling@tcd.ie](mailto:student-counselling@tcd.ie)

Web: [http://www.tcd.ie/Student\\_Counselling](http://www.tcd.ie/Student_Counselling).

### 8.3 College Health Service

The Health Centre is situated on Trinity Campus in House 47, a residential block adjacent to the rugby pitch.

Opening hours: 09.00 - 16.40 with emergency clinics from 09.00 - 10.00.

Tel: 01 896 1591 or 01 896 1556

Web: <https://www.tcd.ie/collegehealth/>

## 8.4 Chaplaincy

The Chaplains are representatives of the main Christian Churches in Ireland who work together as a team, sharing both the college chapel and the chaplaincy in House 27 for their work and worship.

- Steve Brunn (Anglican Chaplain): ✉ [brunns@tcd.ie](mailto:brunns@tcd.ie); tel: 01 896 1402
- Alan O'Sullivan (Catholic Chaplain): ✉ [aeosulli@tcd.ie](mailto:aeosulli@tcd.ie); tel: 01 896 1260
- Peter Sexton (Catholic Chaplain): ✉ [sextonpe@tcd.ie](mailto:sextonpe@tcd.ie); tel: 01 896 1260

Web: <https://www.tcd.ie/Chaplaincy/>

## 8.5 Trinity Disability Service

Declan Treanor, Disability Services Coordinator

Room 3055, Arts Building

Tel: 01 896 3475      ✉: [mdtreanor@tcd.ie](mailto:mdtreanor@tcd.ie)

Web: <https://www.tcd.ie/disability/>

## 8.6 Niteline

A confidential student support line run by students for students which is open every night of term from 9pm to 2.30am.

Tel: 1800 793 793      Web: <https://niteline.ie/>

## 8.7 Students' Union Welfare Officer

House 6, College

✉: [welfare@tcdsu.org](mailto:welfare@tcdsu.org)      Web: <https://www.tcdsu.org/welfare>

## 8.8 Maths Help Room

The Maths Help Room offers free assistance to students who are having difficulty with Mathematics, Statistics or related courses. It runs every week of

term and at certain times out of term. The Maths help-room is a drop in centre, where you can bring in a maths or stats question and get some help.

The Helproom is located in the New Seminar Room in House 20 in the School of Mathematics in the Hamilton Building.

Web: <https://www.maths.tcd.ie/outreach/helproom/>

## **8.9 Undergraduate Programming Centre**

The Programming Centre is available to all Computer Engineering students free of charge. The centre operates as a drop-in service where you can get help with any problems you might have with programming in your courses. For further information, please visit <http://www.scss.tcd.ie/ugpc/>.

## **8.10 Student Learning Development**

Student Learning Development provides learning support to help students reach their academic potential. They run workshops, have extensive online resources and provide individual consultations. To find out more, visit their website at <https://student-learning.tcd.ie/>.

## **8.11 Student 2 Student (S2S)**

S2S offers trained Peer Supporters for any student in the College who would like to talk confidentially with another student, or just to meet a friendly face for a chat. This service is free and available to everyone. To contact a Peer Supporter you can email [student2student@tcd.ie](mailto:student2student@tcd.ie). Web: <https://student2student.tcd.ie/peer-support/>.

## **8.12 Trinity Careers Service**

As a Trinity College Dublin student you have access to information, support and guidance from the professional team of Careers Consultants throughout your time at Trinity and for a year after you graduate. The support offered includes individual career guidance appointments, CV and LinkedIn profile clinics and practice interviews. The Trinity Careers Service and the School of Computer Science and

Statistics also hold an annual Careers Fair in October which gives you the opportunity to find out about career prospects in a wide range of companies..

- Visit <https://www.tcd.ie/Careers/> for career and job search advice
- Sign into [MyCareer](#) to book appointments, find information about vacancies and bursaries, and book your place on upcoming employer events.
- Follow the service on Instagram for career news and advice  
[@trinity.careers.service](#)

### **8.13 Co-curricular activities**

Trinity College has a significant number of diverse student societies which are governed by the Central Societies Committee. They provide information on the societies including how to get involved and even how to start your own society. See <http://trinitysocieties.ie/> for more details. Students are encouraged to get involved.

Trinity College also has a huge range of sports clubs which are governed by the Dublin University Athletic Club (DUCAC). See [http://www.tcd.ie/Sport/student-sport/ducac/?nodeId=94&title=Sports\\_Clubs](http://www.tcd.ie/Sport/student-sport/ducac/?nodeId=94&title=Sports_Clubs) for more details.

### **8.14 Trinity College Students' Union**

The Trinity College Students' Union (TCDSU) is run for students by students. TCDSU represent students at college level, fight for students' rights, look after students' needs, and are here for students to have a shoulder to cry on or as a friend to chat with over a cup of tea. Students of Trinity College are automatically members of TCDSU. It has information on accommodation, jobs, campaigns, as well as information pertaining to education and welfare. For more information see <https://www.tcdsu.org/>.

## 9 General Regulations

### 9.1 Attendance requirements

Please note that attendance at lectures, tutorials and laboratory sessions is mandatory as is the submission of all work subject to continuous assessment. Students who prove lacking in any of these elements may be issued with a Non-Satisfactory form and asked for an explanation for their poor attendance or performance. Students who do not provide a satisfactory explanation can be prevented from sitting the annual examinations. The following is an extract from the College Calendar outlining the College policy on attendance and related issues:

- 18 Students must attend College during the teaching term. They must take part fully in the academic work of their class throughout the period of their course. Lecture timetables are published through my.tcd.ie and on school or department notice-boards before the beginning of Michaelmas teaching term. The onus lies on students to inform themselves of the dates, times and venues of their lectures and other forms of teaching by consulting these timetables.
- 19 The requirements for attendance at lectures and tutorials vary between the different faculties, schools and departments. Attendance is compulsory for Junior Freshers in all subjects. The school, department or course office, whichever is relevant, publishes its requirements for attendance at lectures and tutorials on notice-boards, and/or in handbooks and elsewhere, as appropriate. For professional reasons lecture and tutorial attendance in all years is compulsory in the School of Engineering, the School of Dental Science, the School of Medicine, the School of Nursing and Midwifery, the School of Pharmacy and Pharmaceutical Sciences, for the B.S.S. in the School of Social Work and Social Policy, and for the B.Sc. in Clinical Speech and Language Studies. Attendance at practical classes is compulsory for students in all years of the moderatorship in drama and theatre studies and drama studies two-subject moderatorship.
- 20 In special circumstances exemption from attendance at lectures for one or more terms may be granted by the Senior Lecturer; application for such

exemption must be made in advance through the tutor. Students granted exemption from attendance at lectures are liable for the same annual fee as they would pay if attending lectures. Students thus exempted must perform such exercises as the Senior Lecturer may require. If these exercises are specially provided, an additional fee is usually charged.

21 Students who in any term have been unable, through illness or other unavoidable cause, to attend the prescribed lectures satisfactorily, may be granted credit for the term by the Senior Lecturer and must perform such supplementary exercises as the Senior Lecturer may require. The onus for informing the Senior Lecturer of illness rests with individual students who should make themselves familiar with the general and more detailed school or course regulations regarding absence from lectures or examinations through illness. In addition, issues with students may arise from time to time, which in the opinion of the Senior Lecturer affect a student's ability or suitability to participate in his or her course. If required by the Senior Lecturer, students (other than those subject to §28 below) are obliged to undergo a medical examination or assessment by a doctor or specialist nominated by the Senior Lecturer at the expense of the College for the purpose of obtaining an opinion as to the student's medical fitness to continue with his/her studies or as to his/her ability or suitability to participate in his/her course to the standards required by the College. Students found to be unfit following such a medical examination or assessment may be required to withdraw until such times as they are deemed fit to resume their studies. Students who fail to attend such a medical examination or assessment within a reasonable period may be required by the Senior Lecturer to withdraw until such time as they attend the aforementioned medical examination or assessment and are deemed fit to resume their studies.

22 Students who are unable to attend lectures (or other forms of teaching) due to their disability should immediately contact the Disability Service to discuss the matter of a reasonable accommodation. Exceptions to attendance requirements for a student, on disability grounds, may be granted by the Senior Lecturer following consultation with the student's school, department or course office, and the Disability Service.

23 Students who find themselves incapacitated by illness from attending lectures (or other forms of teaching) should immediately see their medical advisor and request a medical certificate for an appropriate period. Such medical certificates should be copied to the school, department or course office, as appropriate, by the student's tutor.

#### Course work

24 Students may be required to perform course work as part of the requirements of their course of study. The assessment of course work may be based on the writing of essays, the sitting of tests and assessments, attendance at practical classes and field trips, the keeping and handing in of practical books, the carrying out of laboratory or field projects, and the satisfactory completion of professional placements. The school, department or course office, whichever is appropriate, publishes its requirements for satisfactory performance of course work on school notice-boards and/or in handbooks and elsewhere, as appropriate.

#### Non-satisfactory attendance and course work

25 All students must fulfil the course requirements of the school or department, as appropriate, with regard to attendance and course work. Where specific requirements are not stated, students may be deemed non-satisfactory if they miss more than a third of their course of study or fail to submit a third of the required course work in any term.

26 At the end of the teaching term, students who have not satisfied the school or department requirements, as set out in §§19, 24 and 25 above, may be reported as non-satisfactory for that term. Students reported as non-satisfactory for the Michaelmas and Hilary terms of a given year may be refused permission to take their annual examinations and may be required by the Senior Lecturer to repeat their year. Further details of procedures for reporting a student as non-satisfactory are given on the College website at:

<https://www.tcd.ie/undergraduate-studies/academic-progress/>

## 9.2 Absence from examinations

The following is an extract from the College Calendar outlining the College policy on absence from Examinations:

35 Students who consider that illness may prevent them from attending an examination (or any part thereof) should consult their medical advisor and request a medical certificate for an appropriate period. If a certificate is granted, it must be presented to the student's tutor within three days of the beginning of the period of absence from the examination. The tutor must immediately forward the certificate to the Senior Lecturer. Medical certificates must state that the student is unfit to sit examinations. Medical certificates will not be accepted in explanation for poor performance.

- (a) Where a student becomes ill prior to the commencement of the annual examination, they may seek permission through their tutor from the Senior Lecturer to withdraw and take the supplemental examination in that year.
- (b) Where illness prevents a student from completing any part of the annual examination and they withdraw from the examination, permission may be given for a supplemental examination to be taken in that year.
- (c) Where illness occurs during the writing of an examination paper, it should be reported immediately to the chief invigilator. The student will then be escorted to the College Health Centre. Every effort will be made to assist the student to complete the writing of the examination paper.

Students who consider that other grave cause beyond their control may prevent them from attending an examination (or any part thereof) should consult their tutor who should make representations immediately to the Senior Lecturer that permission be granted for absence from the examination. Regulations (a) and (b) also apply in the case of absence from annual examinations due to other grave cause beyond a student's control.

Regulations (a) and (b) apply only to examinations which are non-final non- degree examinations. However, regulations (a) and (b) apply in all years of those professional courses which permit supplemental examinations in final or degree years.

### 9.3 Plagiarism

In the academic world, the principal currency is *ideas*. As a consequence, you can see that *plagiarism* – i.e. passing off other people’s ideas as your own– *is tantamount to theft*. It is important to be aware the plagiarism can occur knowingly or unknowingly, and the offence is in the action not the intent.

Plagiarism is a serious offence within College and the College’s policy on plagiarism is set out in a central online repository hosted by the Library which is located at <https://libguides.tcd.ie/plagiarism>. This repository contains information on what plagiarism is and how to avoid it, the College Calendar entry on plagiarism and a matrix explaining the different levels of plagiarism outlined in the Calendar entry and the sanctions applied.

Undergraduate and postgraduate new entrants and existing students are required to complete the online tutorial ‘**Ready, Steady, Write**’. Linked to this requirement, all cover sheets which students must complete when submitting assessed work, must contain the following declaration:

I have read and I understand the plagiarism provisions in the General Regulations of the University Calendar for the current year, found at: <http://www.tcd.ie/calendar>

I have also completed the Online Tutorial on avoiding plagiarism ‘Ready, Steady, Write’, located at <https://libguides.tcd.ie/plagiarism/ready-steady-write>

Plagiarism detection software such as “Turnitin” and Blackboard’s “SafeAssign” may be used to assist in automatic plagiarism detection. Students are encouraged to assess their own work for plagiarism prior to submission using this or other software.

## 9.4 University regulations, policies and procedures

Academic Policies - <https://www.tcd.ie/teaching-learning/academic-policies/>

Student Complaints Procedure -

<https://www.tcd.ie/CAPSL/TIC/accessible-info/word/>

## 9.5 Data protection

A short guide on how College handles student data is available here:

[https://www.tcd.ie/info\\_compliance/data-protection/student-data/](https://www.tcd.ie/info_compliance/data-protection/student-data/)

## 10 Guidelines on Grades

The following Descriptors are given as a **guide** to the qualities that assessors are seeking in relation to the grades usually awarded. A grade is the anticipated degree class based on consistent performance at the level indicated by an individual answer. In addition to the criteria listed examiners will also give credit for evidence of critical discussion of facts or evidence.

### Guidelines on Grades for Essays and Examination Answers

Mark Range	Criteria
90-100	IDEAL ANSWER; showing insight and originality and wide knowledge. Logical, accurate, and concise presentation. Evidence of reading and thought beyond course content. Contains particularly apt examples. Links materials from lectures, practicals, and seminars where appropriate.
80-89	OUTSTANDING ANSWER; falls short of the 'ideal' answer either on aspects of presentation or on evidence of reading and thought beyond the course. Examples, layout and details are all sound.
70-79	MAINLY OUTSTANDING ANSWER; falls short on presentation and reading or thought beyond the course but retains insight and originality typical of first class work.
65-69	VERY COMPREHENSIVE ANSWER; good understanding of concepts supported by broad knowledge of subject. Notable for synthesis of information rather than originality. Sometimes with evidence of outside reading. Mostly accurate and logical with appropriate examples. Occasionally a lapse in detail.
60-64	LESS COMPREHENSIVE ANSWER; mostly confined to good recall of coursework. Some synthesis of information or ideas. Accurate and logical within a limited scope. Some lapses in detail tolerated.

Engineering with Management 2024-2025

55-59	SOUND BUT INCOMPLETE ANSWER; based on coursework alone but suffers from a significant omission, error or misunderstanding. Usually lacks synthesis of information or ideas. Mainly logical and accurate within its limited scope and with lapses in detail.
50-54	INCOMPLETE ANSWER; suffers from significant omissions, errors and misunderstandings, but still with understanding of main concepts and showing sound knowledge. Several lapses in detail.
45-49	WEAK ANSWER; limited understanding and knowledge of subject. Serious omissions, errors and misunderstandings, so that answer is no more than adequate.
40-44	VERY WEAK ANSWER; a poor answer, lacking substance but giving some relevant information. Information given may not be in context or well explained but will contain passages and words which indicate a marginally adequate understanding.
35-39	MARGINAL FAIL; inadequate answer, with no substance or understanding, but with a vague knowledge relevant to the question.
30-34	CLEAR FAILURE; some attempt made to write something relevant to the question. Errors serious but not absurd. Could also be a sound answer to the misinterpretation of a question.
0-29	UTTER FAILURE; with little hint of knowledge. Errors serious and absurd. Could also be a trivial response to the misinterpretation of a question.
