

MSc in **Health Policy & Management**

Develop the knowledge and skills to effectively address health and social care system and policy challenges to improve the health of populations

Trinity College Dublin
Coláiste na Tríonóide, Baile Átha Cliath
The University of Dublin

Centre for **Health
Policy & Management**

Why Health Policy & Management?

Completed in one year full-time or two years part-time, the MSc in Health Policy and Management equips learners with essential knowledge, skills and tools for understanding, researching and working in complex and changing health and social care systems and services nationally and globally. Combining on-campus and online delivery, the programme is taught through an interdisciplinary curriculum delivered by leading academics, policymakers and health system managers. It is underpinned by the principle of evidence-informed policy and practice, with high levels of student participation and peer-learning. This unique MSc is suitable for professionals (e.g. medicine, nursing, allied health professions, management, public administration) and health and social sciences graduates interested in bringing about changes that address key determinants and improve the health of populations.
