Nursing - Advancing Child Health & Wellbeing (M.Sc./P.Grad.Dip./P.Grad.Cert.)

Course Overview

This programme will enable students to strengthen and develop the knowledge, skills competencies, and attitudes necessary to advance care for the health and wellbeing of children, young people and families. The modules offered are grounded in a body of evidence-based knowledge that promotes excellence in contemporary nursing practice.

How to apply

<http://bit.ly/1xWzsSe>

Course Overview

The course provides advanced study in research methods, the theoretical and practical aspects of management, clinical practice and leadership and child health perspectives as well as contemporary issues in child health and wellbeing. It is anticipated that graduates of this course, in applying their learning, will be enabled to promote and develop excellence in children's illness, child health and wellbeing in primary, secondary and tertiary health care services.

Structure and delivery

There is a flexible approach where you can study part-time for one year to complete a Postgraduate Diploma or Certificate, or you can complete a Master's degree over one year full-time or two years of part-time study.

Year One: commences with a full week in September and thereafter one day per week for the remainder of the academic year.

Year Two: attendance at lectures and workshops throughout the academic year.

A blended learning approach is utilised in the delivery of theoretical content which includes lectures, group discussions and self-directed learning. The assessment process is a combination of written and practical assignments.

Modules (ECTS are listed in brackets)

Postgraduate Cert in Nursing: Child Health and Wellbeing

- NU7209 Childhood Adversity: Understanding the Impact of Childhood Adversity on the Life of the Infant, Child, and Young Person (10)
