Software Engineering Project Proposal 2025

Industry partners can propose any project as long as the projects allow students experience building an end-to-end software engineering (SwEng) project employing software development and design principles common in industry: DevSecOps, GitOps, CI/CD, automated tested, and so forth; and require them to adopt software development best practices.

Please submit one project per form. Companies can submit multiple project proposals.

* Required

1. Company *

2. Main contact email address for communications. *

3. Mentor 1 - Name *

4. Mentor 1 - Job title *

5. Mentor 1 - Email *

6. Mentor 2 - Name (optional)

7. Mentor 2 - Job title (optional)

8. Mentor 2 - Email (optional)

9. Project Title *

10. Project Description *

11. Technologies required/proposed for project. *

12. Languages required/proposed for the project. *

13. Resources provided to the team (if any). *

14. Please provide any additional information/details relevant for the SwEng project proposed. (Optional)

15. Please use the space below to ask any questions you have about the software engineering projects. (Optional)
